

## INOVA Federal Credit Union Elkhart, Indiana

INOVA Federal Credit Union (formerly Michiana Credit Union, a part of the Bayer Federal Credit Union Group) wanted to create a “signature” building image for a major business pitch into the Northern Indiana/Northwestern Michigan market. The facility is a key element in a strategic plan for aggressive growth.

Troyer Group - One Source (TG-OS) was hired to deliver a fast-track process for this highly-visible, state-of-the-art financial services facility.

The interior and exterior design are focused on a market driven theme. Unique design elements include an internet cafe. Monitors providing information about the Credit Union’s services are located throughout the interior as well as on drive-up pedestals. The “Cub Club” children’s play area incorporates reading materials as well as a computer game hook-up.
